## About Library

The Central Library is the heart of the Institute, was established in 1964. It provides essential academic services to this Institution of National Importance Institute. It is a well-equipped Library, centrally located with easy access, and provides the right impetus for the intellectual growth of the students, teachers, research scholars & others. The Library Advisory Committee governs the collective collection of the library. It is a hybrid library with state-of-the-art technological applications. The integrated Library software, ' LIBSYS (Version 10)', has automated most of the library's functions. The library has a fast-growing collection of books, journals, and magazines, both in print and digital format, covering most disciplines taught and researched at the Institute, which consists of knowledge resources predominantly related to Engineering, Science and Technology, Humanities, Social Science Management & other allied subjects. Central Library has close relations with the E-ShodhSindhu Consortium (to access online full-text journals). It is also a member of NDLI (National Digital Library of India) and DELNET (Development Library Network) to benefit from various services.

Central Library is having more than two and half lakhs of documents consisting of technical books, reports, standards, CD-ROMS, and educational audio/video cassettes. Presently library subscription covers 84 periodicals (print) and 8000+ e-Journals. And there are 1995+ e-books besides a holding of 17690 back volumes of journals. Library also contains 16,750 books in the Book Bank scheme.

Digital Knowledge Centre has been established with internet connection. Wi-Fi facility has been provided for laptop users. CCTV cameras are installed in stacks and the entire building is under camera surveillance. RFID technology of document identification and library security system have been implemented for circulation services.

## Vision

To provide comprehensive Resources and Services in support of the Research, Teaching, and learning needs of the Institute community.

## Mission

- To build collections by networking with leading Libraries for providing information and create tools to support research, teaching, and learning.
- To facilitate seamless access to robust and distinctive collections to the stakeholders.
- To ensure the preservation and long-lasting availability of library collections and resources.

## Library Automation

The Library functions are automated using an integrated Library Software called LIBSYS with the following main modules for the Library in-house operations:

- Acquisition System
- Cataloguing System
- Circulation System
- Serial Control System
- Web OPAC

## RFID Technology

RFID technology of document identification and library security system have been implemented for the circulation system, along with the following facilities:

- RFID Tags for protecting the documents.
- RFID Reader for circulation transactions.
- RFID Antenna alarm gate.

## Web Online Public Access Catalog (OPAC)

The OPAC allows for the access of bibliographic databases of the books, reports, CD-ROMs and journals available in the central library. The catalog includes a word-based search facility using Boolean operators that can narrow down a search to meet very specific needs. Additional features of this catalog are:

- Periodic list of recent additions to the library.
- Members can find the materials checked out to them.
- Details of the status of the books can be accessed while browsing and searching information.

The OPAC can be accessed by using the intranet facility available through the link:

<https://nitrichyopac.libsys10.in/>

## Photocopying Facility

Photocopying/xerox facility is available for the users of the Library with a reasonable charge of 1 rupee per page.

## Document Delivery Services

Document Delivery Services are providing through DELNET and eSS consortia.

## Digital Knowledge Centre

Digital Knowledge center has been established to facilitate e-Learning. It has been equipped with 15 personal computer systems with DVD-RW drive, with Internet and Wi-Fi facilities.

## CD-ROM Collection

A good collection of 3000+ CD-ROMS are available for users in Central Library. Under the center of Excellence scheme the library has procured McGraw Hill Multimedia Encyclopedia of Science and Technology on CD-ROM.

## Audio Visual Section

The Audio-Visual section is equipped with a microfilm reader, audio cassette players, video cassette recorders and over 1500 educational audio and video cassettes. Students use the record players and computers for preparing for TOEFL and GRE examinations.

## CCTV- Web Camera Surveillance

CCTV network cameras have been installed in all the entrances and stacks to avoid book theft and other mal practices. The entire building is under CCTV camera surveillance.

## Book Bank Scheme

There is a separate Book Bank Section with a collection of more than 17,500+ textbooks for the reserved category students. A maximum of 5 Book Bank Books will be issued to each eligible SC/ST Post matric scholars and rank holders per semester for promoting their studies.

## Remote Access to E-Resources

### • INFED

Access E-Resources from remote through INFED/Shibboleth. User have to login with their OCTA username (Usually your roll number/ webmail username without "@nitt.edu") and password. Remember, OCTA password is not the same as your webmail password. If you have forgotten your OCTA password, please contact the Computer Support Group (CSG) over email ([csgmaint@nitt.edu](mailto:csgmaint@nitt.edu))

### • MyLOFT

Central Library is providing remote access to all subscribed e-resources for Faculties, PDFs and PhD research scholars through MyLOFT Application. PhD research scholars need to send a request email to [librarian@nitt.edu](mailto:librarian@nitt.edu) for their account creation. After your account is created, a welcome mail reaches your institute affiliated email id (if not found, check Spam folder/ MyLOFT in Junk Summary). There is an option to “Set Password” in that mail. Click on the option. It will open a new tab and will ask you to create a password.

## Research Support Tools

### Plagiarism Detection Software

- **Turnitin**

Turnitin is an Internet-based plagiarism detection service. User can generate similarity report of their research article, assignment and project reports. Only Faculty members and Group A officers get an instructor account visiting Library or sending a request mail to librarian@nitt.edu. Research scholars and students may approach to their respective guide to have the research scholar/ student account.

- **Ouriginal Similarity Checking Tool**

Ouriginal is globally recognized as plagiarism detection tool. Faculty members and research scholars are using this tool for creation of original Academic Content. To have an Ouriginal account, send an email request to librarian@nitt.edu. Before submitting any article/ research paper to Ouriginal go through the instructions and submission guideline carefully.

### Academic Writing Tool

- **Grammarly**

Grammarly is an application tool for checking spelling, and grammar for research writing. It automatically detects potential issues in the text/ document and suggests context-specific corrections for grammar, spelling, punctuation, word choice, style, and plagiarism. To get the all features users need to sign up with their institutional email ID.

### IEEE Course: English for Technical Professionals

This course enables technical professionals to improve language skills in a way that fits the needs and priorities of working adults in the engineering fields. Also presents the English language standards and practice activities that are essential for describing a project to a peer, submit a technical proposal to a funding source, or justify technical findings to a supervisor. It helps learners gain confidence and understanding the technical or engineering communication works.

### Shodhganga - Indian Electronic Theses and Dissertations Repository

Shodhganga is the Indian national repository of electronic theses and dissertations deposited by most of the Indian universities. It is a repository of electronic version of synopses/research proposals submitted to universities for registering in PhD. Shodhganga stands for the reservoir of Indian intellectual output stored in a repository hosted and maintained by the Centre. It is set-up using an open source digital repository software. Currently, we have uploaded the thesis of the researchers awarded in the year 2022-23.

NITT Research scholars are requested to submit the forms: **10C- Form T1\* - PhD Thesis submission for Shodhganga Repository, 10D- Form T2 - Temporary Withhold of Publication (if required)**. It is mandate to submit the soft copy of their final signed thesis in the CD ROM as provided in the Annexure I (Please refer the Guidelines).

**Guidelines:**

### NIT Faculty Profile: Indian Research Information Network system.

IRINS is web-based Research Information Management (RIM) service developed by the

Information and Library Network (INFLIBNET) Centre. The portal facilitates the academic, R&D organizations and faculty members, scientists to collect, curate and showcase the scholarly communication activities and provide an opportunity to create the scholarly network. The IRINS is available as free software-as-service to the academic and R&D organizations in India. Central Library regularly maintain and update the faculty profiles in the Indian Research Information Network systems.
